RECYCLED

## why not be environmentally friendly?

Most of our products now have a recycled option so look for the recycled logo on our website and compare the prices. You'll be surprised how much you can change the world for such a low cost with Dynamite!

The environment is extremely sensitive and we thoroughly believe there is a need to offer an environmentally friendly alternative so that your printed products can be produced on high quality recycled stock. You will find that there is a recycled option for most of our standard products.

### Our Waste Recycling.....

The waste paper in our office is collected for recycling.

Our metal plates, used in the print production process, are taken by a scrap metal company to be recycled.

All of our paper offcuts are collected by a paper recycling company who process the waste into toilet paper!

## STOCK

Monza Recycled Art -

This stock comes in a range of thicknesses and is one of the best available. It has a great surface and does not have a 'cheap' look or feel. This is great for brochures and postcards. This stock is 55% recycled and 45% FSC certified\* virgin fibre. It is available in both a gloss and satin finish.

Eco Star Offset -

This is a typical letterhead stock that is 100% recycled (60% post consumer, 40% preconsumer) it is also FSC certified.\*

\*FSC certified - Forest Stewardship Council Certifies papers with strong environmental credentials. For more information visit: [www.fsc.org](http://www.fsc.org)
